

Pharmaceutical & Life Sciences

Accelerating Collective Impact with Energize

19 June 2025

YOUR SPEAKERS

Maria Terracina, Sustainable Sourcing Lead, Pfizer and Co-chair, SPP Pharma Chapter

Dave Rimkus, Director of Supply Chain Decarbonization Programs, Schneider Electric

Peter Heredi, Renewable Energy & Carbon Advisory Manager, Schneider Electric

Rob Williams, Senior Director Sustainable Procurement, AstraZeneca and Co-chair, SPP Pharma Chapter

Matthew Yamatin, Sustainability Program Director, Thermo Fisher Scientific

Chris Low, Head of Sustainability Procurement & Packaging, Haleon

AGENDA

1. Introduction to Energize
2. Decarbonization Progress Through Energize
3. Cohort Process & Considerations
4. Energize Industry Impact & Future
5. Q&A

Connecting the pharmaceutical, healthcare and life sciences supply chain to renewable electricity

Access to Education

1) Any company that supplies to a program sponsor is eligible to participate. **There is no cost for suppliers to join Energize**

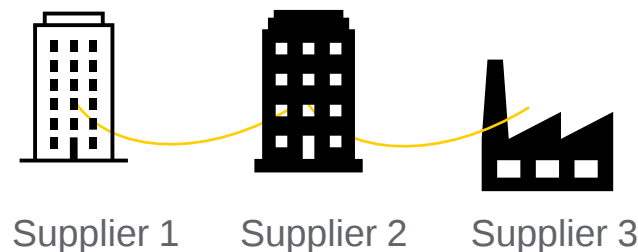

2) Exclusive access **to live and on-demand education** designed for suppliers of any size

3) **1:1 SUPPORT: Experts from Schneider Electric** help supply chain partners explore the renewables market and leverage the best options for renewable electricity procurement for their unique business needs and goals

Suppliers that register for Energize are not obligated to participate in any portion of the program or work with Schneider Electric to purchase renewable electricity.

Access to Procurement Support

Unique Access to Renewable Electricity

Suppliers that join Energize can purchase as a solo buyer or **combine their electricity demand** to buy renewable electricity

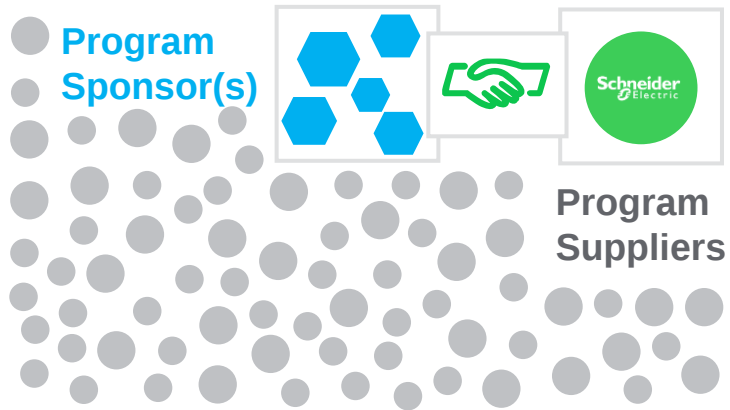

Supplier Benefits:

- Entry point for suppliers with smaller electricity demand to **access otherwise unavailable purchasing mechanisms**
- **Scale** needed to execute a group PPA purchase
- **Better pricing** and contract terms

Energize

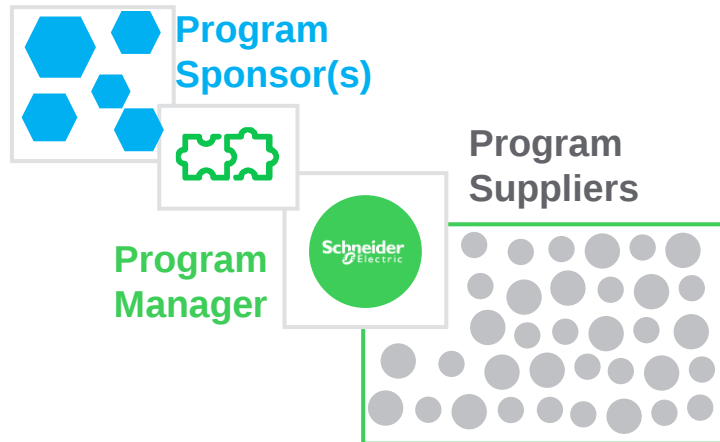

A Program to Increase Access to
Renewable Energy for Pharmaceutical Supply Chains

Design

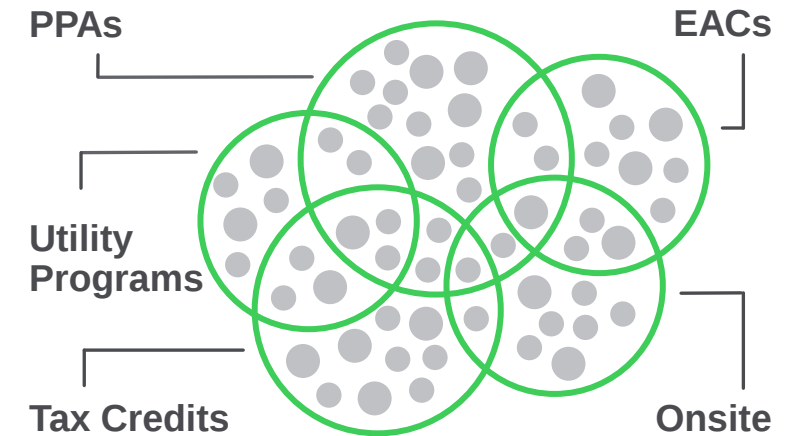

Collaborate on **custom program strategy** including outreach, marketing, and engagement priorities to address Sponsor needs and goals.

Engage

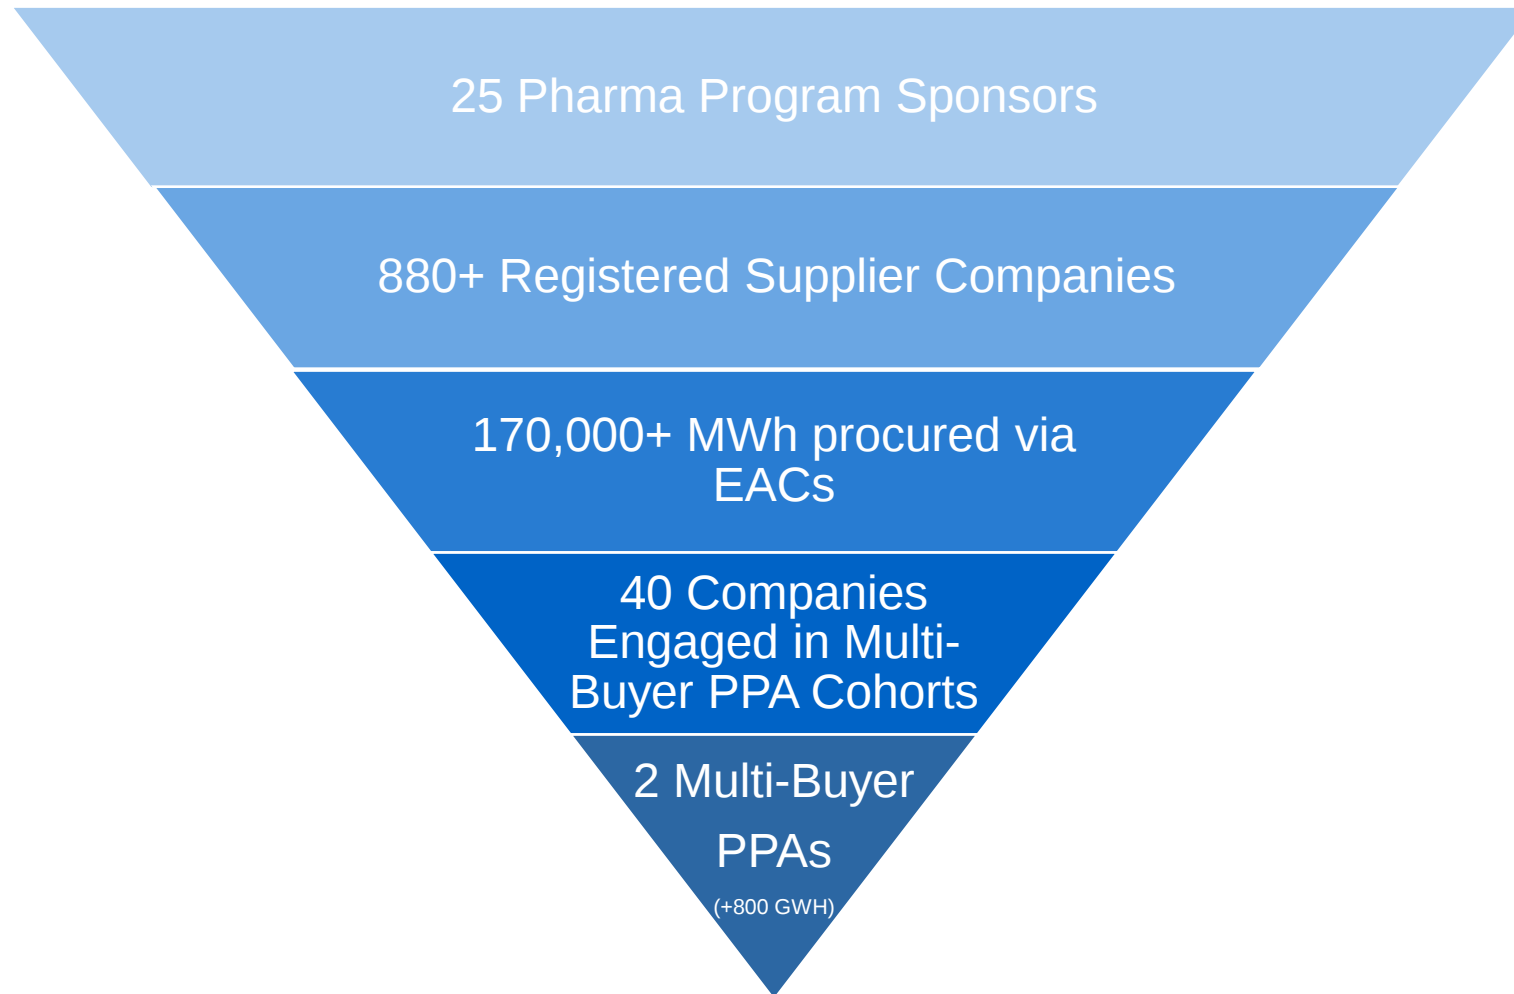

Suppliers participate in **tailored engagement and education** to explore levers of decarbonization and qualify program opportunities.

Decarbonize

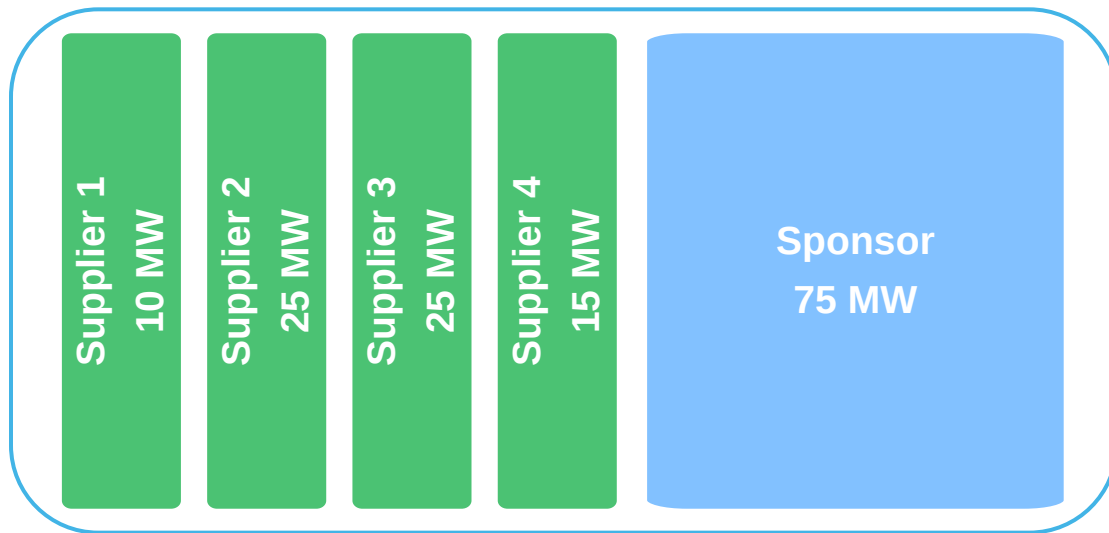

Suppliers receive expert advisory support to **implement best-fit solutions** and initiate individual or aggregate solutions.

Program Success to Date...

Multi-Buyer PPAs: A Proven Innovative RE Sourcing Opportunity

*150 MW Project (250,000 – 500,000 MWh/yr)**

**For illustrative purposes only*

What is a Multi-Buyer PPA?

- Multiple buyers **go to market together** as a group (cohort) to reach needed electricity demand
- Joining a multi-buyer PPA cohort is **not an obligation** to transact

Outcome of Multi-Buyer PPA:

- Long-term renewable energy solution sized to each member demand
- Supplier & sponsor emissions reductions

Multi-buyer PPA Cohort Status:

- 2 Cohorts signed PPAs
- 6 Multi-buyer Cohorts formed
- **EU Cohort 6 & 7 Open Now**

Energize

PSCI PHARMACEUTICAL
SUPPLY CHAIN
INITIATIVE

Building responsible supply chains

12 companies sign PPA's in Multi-buyer Cohorts
resulting in new renewable capacity in Europe.

3 developers
8 new solar projects

31 PPAs signed
with a 10-year commitment

over 800 GWh
Contracted per year

435,543 CO₂ annually
avoided for the 10-year term

**Project Operational
Dates**

2025-2026

Invite Your Suppliers to Join Energize!

If your supplier answers yes to any of these questions, they will benefit from Energize:

1. Do you need any support developing your renewable electricity strategy?
2. Do you need any support executing renewable electricity transactions?
3. Are you looking for more long-term, environmentally impactful, or financially beneficial ways to source renewable electricity?

Top Categories of Suppliers to Invite to Energize:

- APIs
- Software, Data Centers, Cloud
- Chemicals
- Healthcare & Patient Services
- Logistics
- Manufacturing
- Medical Devices & Equipment
- Packaging (Plastic, Glass, Paper)
- Research & Development
- Test & Measurement Equipment

Energize Autumn Educational Series

BASICS	Sept 10	Introduction to Renewable Electricity
BASICS	Sept 17	Introduction to Energy Attribute Certificates
BASICS	Sept 24	Introduction to Onsite Solar
BASICS	Oct 1	Introduction to Tax Credit Transfers – 11:00 am EST only
BASICS	Oct 8	Introduction to Power Purchase Agreements
NEXT STEPS	Oct 13 – Oct 17	1:1 Action Meetings

The second half of the series provides in-depth sessions explaining considerations when pursuing VPPAs.

DEEP DIVE	Oct 22	VPPAs: Financial Considerations
DEEP DIVE	Oct 29	VPPAs: Treasury Considerations
DEEP DIVE	Nov 5	VPPAs: Accounting Considerations
DEEP DIVE	Nov 12	VPPAs: Legal & Risk Considerations
NEXT STEPS	Nov 19	VPPA Cohort Participation
