

Making Sustainable Procurement the default!

Join Us for SPP's 2026 World Sustainable Procurement Day!

Sustainability is more than an aspiration, it's our shared responsibility that demands bold action. World Sustainable Procurement Day (WSPD) is a day for the Procurement Community to show what that really looks like. This isn't another day of talk; it's a global moment for procurement professionals to come together, across regions, industries, and topics, to learn, exchange, and collaborate with one goal: making sustainable procurement the default! Together we are turning ambition into practical action. #ActionOverNoise is our rallying call, cutting through skepticism, focusing on the "how," and celebrating the courage to start, scale, and make real impact. It is not about looking for perfection, it is about incremental change through brave bold steps that each one of us can take. This is your day. See and feel the power of Procurement. You are not just part of the solution—you are driving it.

World Sustainable Procurement Day

On March 25-26, 2026, our global community will unite for 24 hours of actionable sessions, featuring inspiring leaders, thought-provoking speakers, subject matter experts, and YOU—the SPP sustainable procurement community.

WSPD is a **free, inclusive, and safe space** where procurement professionals, leaders, young visionaries, students, academics, and allies join forces to accelerate sustainable sourcing and supply chain practices to drive change. Designed **by procurement, for procurement**, WSPD tackles the most critical challenges and opportunities shaping the global sustainability agenda. It provides the tools, insights, and connections you need to make informed decisions and implement sustainable practices—every step of the way.

WSPD 2026 is your gateway to action and progress. Discover how to achieve ambitious sustainability goals, prepare for ever-evolving regulations, and create lasting impact in your organizations and beyond. Focusing on **People, Planet and Profession**, we'll dive into driving diversity and inclusion for greater social change, explore pivotal actions for the sustainability transition and shape together the future of the procurement profession.

Activate your power!

Equip yourself with the strategies, solutions and tools to accelerate sustainability progress. With just five years to 2030, the time to lead is now. WSPD 2026 is your opportunity to connect to a community that get's it done, to learn from your peers, and lead the transformation in your organization and beyond.
